VEGETINE **Reliable Evidence.**

Mr. H. R. Stevens:

Dear Sir—I will most cheerfully add my testimony to the great number you have already received in favor of your great and good medicine, VEGETINE, for I do not think enough can be said in its praise, for I was troubled over thirty years with that dreadful disease, Catarrh, and had such bad coughing spells that it would seem as though I never could breathe any more, and VEGETINE has cured me; and I do feel to thank God all the time that there is so good a medicine as VEGETINE, and I also think it one of the best medicines for coughs and weak, sinking feelings at the stomach, and advise everybody to take the VEGETINE, for I can assure them it is one of the best medicines that ever was. MRS. L. GORE,

Cor. Magazine and Walnut Sts, Cambridge, Mass.

GIVES

Health, Strength and Appetite.

My daughter has received great benefit from the use of VEGETINE. Her declining health was a source of great anxiety to all her friends. A few bottles of VEGETINE restored her health, strength and appetite.

GENERAL NEWS.

FROM WASHINGTON.

THE PRESIDENTIAL QUESTION.

OPINIONS ON THE SITUATION.

Republican Expectations.

WASHINGTON, Feb. 8.

The republican members of the Electoral Tribunal tell their friends this morning that there is an almost absolute certainty that the final result will favor Hayes and Wheeler. This opinion, of course, is based upon personal knowledge of expressions within the tribunal, which go further than the immediate issues in the Florida case. Letters and telegrams have been sent to Gov. Hayes to this effect. Justice Bradley voted with the democrats to inquire as to the eligibility of Elector Humphreys on the ground that the Constitution warrants it, and that the provision is self-executing. The Tilden men claim to be hopeful, but evidently are much depressed.

The Signal Service.

The latest proposition in reference to the Signal Service Bureau is that it be transferred from the War Department to the coast survey. This seems to meet the views of a majority of the military committee, who will probably make a report to that effect this week.

Yesterday's Proceedings.

WASHINGTON, Feb. 8.

When the tribunal met at 11 o'clock, today, the orders adopted yesterday in secret session were read, and the democratic counsel offered to submit evidence as to the time when the motion of quo warranto proceedings was served on the republican electors. The counsel on the republican side objected, and the tribunal sustained the objection.

Mr. Humphrey's Case.

Jas. E. Young, a lawyer, of Pensacola, Fla., was then called as a witness by the democrats, and testified that he knew Mr. Humphrey, the alleged ineligible elector, and had appeared before him as late as last August as a lawyer. There was no cross-examination, and the democrats' counsel said they had no more witnesses on this point. This announcement created much surprise, as the witness had not testified to anything to help the democratic case.

Humphreys Testifies in his own Behalf.

Mr. Fearis then called Mr. Humphreys, who testified that he had ceased to act as shipping commissioner on the 5th of last October. He read a letter from Judge Mears accompanying his resignation, which had been previously tendered. The letter of acceptance was produced and offered as evidence, but objected to by the democratic counsel. The witness said he had not acted as shipping commissioner since the 5th of October.

Cross-examined, he testified that he sent his letter of resignation to Judge Woods by mail to Newark, Ohio, where he was visiting. There had been no session of the circuit court since the resignation was tendered.

Arguments on the Main Question.

The examination was then closed, and as neither side had any more witnesses, Justice Clifford announced that the evidence was closed, and that under the rule of the court argument would now be heard on the main case, each side being allowed two hours. Mr. Merrick, on behalf of the democrats, said that he would like to ask that another hour be granted to each side, and that three counsel be allowed to speak instead of two, as prescribed by the rules. The commission granted the request, and at a quarter to 12 o'clock Judge Hoadley, of Cincinnati, opened in behalf of the democrats.

The Suit Against Gen. Belknap Dismissed.

WASHINGTON, Feb. 8.

The case of the United States against Gen. Belknap was today dismissed on motion of the District Attorney in accordance with the directions of the attorney general, for the reason that the evidence would not sustain the prosecution. The action of the attorney general is taken on the direction of President Grant, who endorses a report by the district attorney as follows:

"In view of the within statement of the district attorney of the District of Columbia to the effect that he believes a conviction improbable, and in view of the long suffering of the accused, and the great expense to which he has already been subjected, I think the district attorney should be directed to dismiss the suit.

(Signed) U. S. GRANT."

The formal order of the attorney general follows, and Judge MacArthur endorsed it:

"On reading the papers and instructions filed, and on motion of H. H. Wells, United States Attorney, it is ordered that the case, being indictment No 11,262, be and the same is hereby dismissed.

MACARTHUR, Justice."

An Ineligible Democratic Elector from West Virginia.

WASHINGTON, Feb. 8.

Albert Peyser, an alleged democratic elector from West Virginia, arrived this morning in obedience to the subpœna from the senate committee on privileges and elections. It is claimed that Peyser is a native of Poland, and has never been a naturalized citizen of this country. Several witnesses subpœnaed to testify that Peyser claims to be a native of the state of New York.

Change of Wells and Anderson's Place of Detention.

WASHINGTON, Feb. 8.

The Sergeant-at-Arms yesterday transferred Gov. Wells and Gen. Anderson from the room of the committee on education and labor to that previously occupied by them, in which heretofore Wooly, J. B. Stewart and other recusant witnesses were confined. The reason for the removal was that the committee desired their room for the transaction of business. Gov. Wells complained of his quarters, but Anderson expressed himself satisfied. Sergeant-at-Arms Thompson offered to remove Wells to the room occupied by the colored members of the returning board, but he refused, not being willing to part company with Anderson. Thompson says he is now endeavoring to procure more comfortable quarters for Wells, who complains of sickness.

THE RECORD OF FIRES.

At Stafford Springs Ct.—Loss $20,000.

HARTFORD, Feb. 8.

The sash and blind warehouse of Crawford & Banford and the Masonic hall at Stafford Springs were entirely destroyed by fire this morning. Loss $20,000; insured for $15,000 in the Phœnix, Ætna and Hartford of Hartford, the Continental and Westchester of New York and the North British.

AN ASTONISHED CHINESE BUTLER.

General Ignatieff, when leaving his ambassadorial post at Peking in 1861, presented a case of champagne to Su Shun, an imperial prince, and the chief favorite of the emperor, but omitted to send a corkscrew with it. Not wishing to monopolize the wine, and being mindful of his patron's taste for strong drinks, Su Shun forwarded some of the wine to the palace.

The compliment was duly appreciated, but when the Emperor ordered his imperial butler to open a bottle, that functionary, who had never seen bottles so fastened down, was completely at a loss how to get at the contents. As a last resource, he put a bottle on a stove, and the result in due course was a tremendous explosion, which caused considerable alarm in the celestial household. Su Shun soon after lost his head, but on another indictment.—[Pall Mall Gazette.

The Queen Opens Parliament.

Her Views on the Eastern Crisis.

Opening of Parliament.

LONDON, Feb. 8.

The session of the British Parliament for 1877 was opened by Her Majesty the Queen in person. The weather was fair and mild. The Prince and Princess of Wales were present and there was a brilliant assemblage of ladies. All the foreign ministers and the Chinese and Japanese embassies were also present. The earl of Beaconsfield carried the sword of state before the Queen. The marquis of Salisbury was not present. After Her Majesty had taken her place on the throne the Lord High Chancellor read the royal speech.

The Queen's Speech.

The Queen in her speech says: "The hostilities which, before the close of the last session of Parliament, had broken out between Turkey on the one hand and Servia and Montenegro on the other, engaged my most serious attention, and I anxiously awaited an opportunity when my good offices, together with those of my allies, might be usefully interposed. This opportunity presented itself by the solicitation of Servia for our mediation, the offer of which was ultimately entertained by the Porte.

The papers on these subjects will forthwith be laid before parliament. Her Majesty alludes to her assumption of imperial title at Delhi, which was welcomed with professions of affection, and to the famine in India, to arrest which every source will be employed. The remainder of the speech is devoted to colonial and home matters.

THE FRENCH STATUE OF LIBERTY.

The committee appointed to raise means for the pedestal, the reception and the erection of Bartholdi's statue of Liberty as a beacon in New York harbor have issued an appeal for aid to the people of the United States. In the course of their address they say:

"The undersigned—a committee appointed at a meeting of citizens held at the Century Club on the 2d of January, 1877—have been charged with the duty of presenting the project to the concurrence and co-operation of their fellow-countrymen, and in pursuance of their task will circulate in all the great cities and towns of the United States a series of subscription papers, in order that all classes of citizens may be enabled to take part in this grand patriotic enterprise. Subscriptions to any amount will be received—from 10 cents to $100 and over. Chambers of commerce, boards of trade, exchanges, tradesmen's and mechanics' associations, clubs, and other regular organizations are particularly requested to interest themselves in the furtherance of our object."

The appeal is signed by William M. Evarts, chairman; Edwin D. Morgan, John Jay, William Cullen Bryant, Parke Godwin, Samuel D. Babcock, William H. Wickham, John Taylor Johnston, Henry F. Spaulding, Theodore Roosevelt, Frederick R. Coudert, James W. Pinshot, treasurer; William B. Appleton, Clark Bell, Theodore Weston, John T. Denny, Anson Phelps Stokes, Samuel P. Avery, J. Seaver Page, Worthington Whittredge, Richard Butler, secretary.—[Exchange.

Once a year the chamber of commerce publishes a statement of the commerce of the city of New York. The statistics are furnished by the government, and are collected with great care. The official paper is now ready to be issued. The commerce of New York has fallen off for the last year $2,000,000. This includes exports, imports and re-exports. The trade has gone elsewhere. Other ports have gained over last year 11,000,000. Several reasons are given for this decadence. Business itself has decreased. Goods and material are lower than has been known for years. In the single article of coloring for paper—it formerly cost four and five cents a pound. The market price is now one cent and a half a pound. Then cotton and grain go direct from headquarters to the great cities without paying a tribute to New York. To arrest this decrease of commerce a strong effort is being made to sell all the lateral canals and retain only the great trunk lines. The great canals do not pay their own way, because they have to support the side outlets of trade. If the small canals were disposed of, the Erie and others would pay their own way and reduce the tolls. Congress has granted the authority. The matter only waits legislative sanction. The railroads are bitterly opposed to selling the small canals.

CAUGHT A TARTAR.—The Island Review says that in Nantucket the other evening a man at the head of steamboat wharf made a criminal attack upon a young woman who was walking in that vicinity, seizing her and dragging her down the wharf. The young woman did not scream or faint, but getting one of her arms free struck the fellow a violent blow in the face, so surprising him that he dropped his burden, and before he could do more she had armed herself with a piece of board and assumed hostilities on her own account. The two observers who witnessed the affray, and were hurrying to render aid, were delighted to see how the tide turned, for the last seen of the brute he was running, and howling that his arm was broken, and cries of "Don't, don't!" and groans of anguish were uttered from his lips in notes of real distress, followed by terrible thwacks from the board, for some distance, before he got finally clear from the plucky woman.

On one occasion when Henri Monnier was acting in the provinces a terrible storm came up just before the hour announced for the performance to begin, and when the curtain rose the audience was found to consist of one solitary man. Nowise disconcerted, Monnier advanced to the footlights and addressed the public: "Excuse me, sir, but would you mind coming up here and sitting on the stage? It will fatigue my voice less if you are close beside me, and you can see just as well. Or what do you say to our closing the theatre and going to the café next door to play dominoes?"

A dandy wishing to be witty accosted an old rag man as follows: "You take all sorts of trumpery in your cart, don't you?" "Yes; Jump in—jump in!"

GENERAL ASSEMBLY.

JANUARY SESSION, AT PROVIDENCE.

SENATE.

THURSDAY, Feb. 8.

The governor presented the annual report of the adjutant general. Received and ordered communicated to the house.

House resolution inviting the superintendent of the American Institute for the Deaf and Dumb to give an exhibition of his pupils before the General Assembly on Wednesday next, 15th inst., was adopted in concurrence.

Mr. Cross, from the committee on engrossed bills, reported as truly and rightly engrossed an act for supplying Newport with pure water. Passed in concurrence as so engrossed.

House resolution upon the petition of Charles S. Northup for relief. Referred to the committee on finance.

House act amending chapter 149, title XX.: "Of Marriage." Referred to the committee on the judiciary.

On motion of Mr. Cross, the rules were suspended and the resolution passed yesterday upon the subject of simplifying, &c., the administration of justice, was sent to the house forthwith.

HOUSE OF REPRESENTATIVES.

The house met at 11 o'clock, Speaker Aldrich in the chair.

The second report of the commissioners upon the building of the new Providence County Court House was presented, read and received. Referred to the committee on state property.

Mr. Dixon presented an act in relation to the sale of real estate under powers of sale in mortgages. Referred to the committee on judiciary. The act provides that any person making sale of any real estate under a power of attorney contained in a mortgage deed in addition to the notice required by the terms of the said power of sale shall give notice in writing to all persons who appear by the records of the town where such real estate is situated to have any interest therein at the time of the advertisement thereof who reside within this state, of the time and place of the proposed sale ten days before the same is to take place, but he need not give any such notice of any adjournment of the said sale; such notice shall be served by a sheriff, deputy sheriff, town sergeant or constable, who shall make returns upon a certified copy thereof of the time manner and place of the making of such service, and which copy and return when duly recorded shall be conclusive evidence of the facts therein set forth. The fees of an auctioneer, making sale of real estate sold by virtue of a power of sale contained in a mortgage shall in no case exceed fifty dollars, nor shall such fees exceed the sum of one per cent. on any amount for which any real estate is sold under such power up to $20,000, or more than one half of one per cent. on any amount of such sale under such authority in excess of $20,000.

Also, presented an act defining and limiting the mode of enforcing the liability of stockholders for the debts of corporations. The act provides that no person shall hereafter be imprisoned or be continued in prison, nor shall the property of any such person be attached upon an execution issued upon a judgment obtained against a corporation of which such person is or was a stockholder. All proceedings to enforce the liability of stockholders for the debts of a corporation shall be by suit in equity conducted according to the practice and course of equity, and in any such suit any stockholder in the corporation may contest the validity of the claim upon which any judgment against the corporation was obtained upon any ground which the corporation could have contested the same in the action in which such judgment was recovered. Referred to the judiciary committee.

Petition for woman's suffrage was duly received and referred.

The resolution appointed a special committee to report an act to simplify, cheapen and hasten the administration of justice, was referred to the judiciary committee.

BUSINESS NOTICES.

A WONDER-WORKING REMEDY.

No remedial agent has ever been offered to the sick and debilitated at all comparable to Hostetter's Stomach Bitters, in cases of remittent and intermittent fevers, constipation, nervous ailments, rheumatism and disorders involving constitutional weakness or physical decay. It literally "works wonders." The botanic ingredients which its spirituous basis holds in solution, act like a charm upon the stomach, and through the stomach upon the brain, liver, bowels and nervous system. There is nothing in its composition that is not salubrious. It contains some of the most potent tonics of the vegetable kingdom and the juices of the best aperient and anti-bilious roots and herbs, combined with a perfectly pure stimulating element. The Bitters are peculiarly adapted to those engaged in exhausting or unhealthy occupations, as by its use strength is sustained and the ability of the system to resist atmospheric and other influences prejudicial to health largely increased.

READ AND LEARN FOR YOURSELF.

Many valuable discoveries and much useful knowledge is kept from the world, because of the immense expense making them known to the people. This is not the case with BOCHEE'S GERMAN SYRUP. Although but a few years introduced into this country its sale now reaches every town and village in the United States. Its wonderful success in curing consumption, severe coughs, asthma, and all other diseases of the throat and lungs, was first made known by distributing every year, for three years, over 400,000 bottles to the afflicted, free of charge, by druggists. No such a test of merit was ever given before to any other preparation. Could you ask more? Go to your druggist James H. Taylor and get a bottle for 75 cents and try it. Sample bottles 10 cents.

ECHENCK'S PULMONIC SYRUP, SEA WEED TONIC AND MANDRAKE PILLS.—These deservedly celebrated and popular medicines have effected a revolution in the healing art, and proved the fallacy of several maxims which have for many years obstructed the progress of medical science. The false supposition that "consumption is incurable" deterred physicians from attempting to find remedies for that disease, and patients afflicted with it reconciled themselves to death without making an effort to escape from a doom which they supposed to be unavoidable. It is now proved, however, that CONSUMPTION CAN BE CURED, and that it HAS BEEN cured in a very great number of cases (some of them apparently desperate ones) by Schenck's Pulmonic Syrup alone; and in other cases by the same medicine in connection with Schenck's Sea Weed Tonic and Mandrake Pills, one or both, according to the requirements of the case.

Dr. Schenck himself, who enjoyed uninterrupted good health for more than forty years, was supposed, at one time to be at the very gate of death, his physicians having pronounced his case hopeless, and abandoned him to his fate. He was cured by the aforesaid medicines, and, since his recovery, many thousands similarly affected have used Dr. Schenck's preparations with the same remarkable success.

Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his principal office, corner Sixth and Arch streets, Philadelphia, every Monday, where all letters for advice must be addressed. Schenck's medicines are sold by all druggists. jan15-eod-1m-no

Poems, and an Anti-Slavery Drama,

By CAROLINE A. ROBBINS, of Newport, R. I.

Price in paper, 50c.; in cloth, two styles, $1 and $1.25.

For sale by W. A. BARBER, 108 Thames street.

These productions will possess especial interest to the friends of the writer, many of whom will be glad to avail themselves of this opportunity to procure such a souvenir of her genius and worth.—[Newport News.

Our townswoman, Miss Caroline A. Robbins, has just published a book of poems. This gifted woman, the daughter of the late Hon. Asher Robbins, one of Rhode Island's distinguished sons, has always been active in deeds of humanity. Throughout the poems, there is that underlying humanity, that heart and manifestation of sympathy with the weak and unfortunate, so characteristic of her life, an outflow of tender sensibilities vividly portraying the depth of her thoughts. Many of her fellow citizens will cherish the volume, associating a true woman with the gentleness of its words.—[Cor. Newport News. d15-law-6w

THE DAY.

Bank defalcations are becoming uncommonly prevalent.

There is now but little hope for the recovery of Secretary Morrill.

It is not a National Returning Board, but a Judicial Tribunal, after all.

Jay Gould complains that somebody has been cheating him. It is too bad!

It is hinted that Midhat Pasha is dead. Sudden deaths frequently occur among the high officials of Turkey.

A car load of merchandise arrived in Boston this week in sixty-eight days from Chicago. Snowed up.

The committee on the new city charter will revise the document, harmonize the new parts with the old, and try again.

Extensive religious revivals are reported in all sections of the country and numerous additions are being made to the churches.

Lieut. Commander Ludlow is ordered to the Trenton as executive officer and Midshipman Case is ordered to report at the same vessel.

Ex-Secretary Belknap is likely to escape. It has been decided that the evidence is not sufficient to sustain the charges against him and the indictment has been quashed.

The rinderpest is again manifesting itself in a very serious form in many parts of Germany, especially in Hamburg, and it is thought that infected cattle have been sent to England.

The cotton manufacturing interest is quite encouraged by the outlook of the markets. During the last week at Providence 242,000 pieces of printing cloths were sold, the closing prices being firm at 5 1-2 to 5 1-4 cents, against 4 cents a few months ago.

The treatment of the members of the Louisiana returning board is one of the greatest outrages of the age. David Dudley Field will make heroes of the imprisoned men and secure for them the sympathy of the whole country. They are as yet unconvicted of crime, and still are immured in a dungeon. This is despotism pure and simple.

The editor or public man who attempts to sift the truth out of the conflicting reports of Southern election outrages has an easy task in comparison with the one who wants to know what is really doing in the East—that is to say, Turkey and the neighboring regions. The latest atrocity is the expulsion of 1500 Jews from their homes in Roumania. The condition of these unfortunate exiles is represented as being pitiable in the extreme, as they are said to be exposed to the inclemency of the weather without food or shelter. Public meetings have been held in their behalf and a great deal of excitement occasioned among their co-religionists. In the midst of the excitement, the diplomatic agent of Roumania, at Paris, writes to the London Times denying in the most positive terms the whole story, stating that the only foundation for these reports is the fact that two shops for the sale of ardent spirits had been closed and permission to open another refused.

THE ELECTORAL COMMISSION.

The majority of the republicans throughout the country favored the appointment of the electoral commission solely in the interests of peace. They were made to believe that a settlement of the questions at issue according to the old methods, would result in conflicts that might lead to many uncertainties if not to armed resistance and attempts at revolution. But it begins to appear that at least one of the parties to the contest does not intend to quietly submit, providing the decision should be against his claims. If this be true, then the whole object of the reference is lost, and the friends of Hayes and Wheeler who had a sure thing as the case stood, have been made the victims of a foul conspiracy. We trust the good sense of the better men in the democratic party will compel acquiescence in the verdict let it be what it may. But judging from the course pursued by Mr. Tilden's attorneys of late, we fear there may be some truth in the representations of the following article which we clip from the Hartford Post:

There are some rumors afloat that must disturb the equanimity of those republicans who favored the surrender of the firm ground held by the party to the chances of a national returning board. Mr. O'Connor, it was noticed, took occasion to declare that the House of Representatives might judge for itself whether there had been an election, and whether there was occasion for assuming its power to elect, and the circumstance recalls the fact that Speaker Randall, even after the passage of the bill that was to heal all difference, broke away from all precedents and appointed two burly ex-rebels tellers on the part of the House, and it is whispered about that Randall and those who follow his lead entertain the design to declare Tilden elected in the House, if the commission fails to give them their case. However that may be, there is evidence that Tilden has no idea of submitting to a defeat. A correspondent of the New York Tribune says an influential democratic chairman of one of the leading investigating committees of the House remarked Monday night that if the final decison of the electoral count should be adverse to Governor Tilden, he will not accept the result without further testing his rights in the courts. The last section of the compromise bill provides that either of the parties in interest, notwithstanding the award of the commission, shall not be deprived of any rights now possessed under the constitution or the laws to try the rights of the presidency by an order *in quo warranto* or otherwise. This chairman says that Mr. Tilden will certainly begin the biggest lawsuit of the century to obtain the office if he is declared to have been defeated.

So that, if Hayes gets what belongs to him through the commission, we shall stand just where we should have stood had the constitutional course been pursued: Tilden will still be The Claimant, and the office will still be in dispute. By yielding to democratic clamors Tilden gains all the chances in a lawsuit before the commission, and yields no part of his claims if he is defeated.

PERSONALS.

.....Midhat has been ex-Ported.

.....Paul B. Du Chaillu has arrived from Europe.

.....Tom King, who fought with Heenan, is now a florist in England.

.....Secretary Morrill is decidedly better and his friends no longer fear a fatal result.

.....Rear Admiral Wilkes of Mason and Slidell fame is lying very ill at his residence in Washington.

.....Prof. James Russell Lowell is lecturing on Dante, at the John Hopkins University, in Baltimore.

.....Edwin Booth has discontinued his suit against Jarrett & Palmer to restrain the latter from using the name "Booth's Theatre."

.....It is said that Rev. Edward Everett Hale's signature may be found beneath the constitutions of more societies than that of any living man.

.....Ex-Treasurer Spinner writes from Florida: "Plums and peaches are in blossom. Mrs. Moore has ripe strawberries in the open grounds of her garden."

.....Senator Hamlin is said to hate a newspaper man so much that, when he can't make a bad enough face at him, he puts on a mustard plaster and eats alum.

.....Mr. Moody authorizes the announcement that the subscriptions in aid of the family of the late P. P. Bliss have placed them in comfortable circumstances, and that the contributions should now cease.

.....Rear-Admiral John J. Almy visited Admiral Boutakoff on board his flagship, the Svetlana at Norfolk, this week and was received with a salute of thirteen guns, which was duly returned by the Powhatan.

WORKING LAND ON SHARES.

Working land on shares seems to be a poor business for both parties. It is to the interest of the tenant to spend as little for extra labor as possible, because the owner of the land gets half the benefit, without bearing any of the expense. When the country was new and the land rich, a man could, perhaps, afford to give half the products, as he could get fair crops with little labor; but now that the land is more or less run down, and it is necessary to build it up with manure and good culture, it is impossible for a man to expend the necessary labor and give half the produce for rent. It may be done for a year or two on land in high condition; but the farm must inevitably deteriorate under the system. A man might afford to rent a grass-farm on shares, but not an arable farm. It is difficult to take one of our ordinary run-down farms and raise enough from it, for the first few years, to pay the cost of labor and support the teams. It would be cheaper, so far as immediate profit is concerned, to pay one hundred dollars an acre for a farm in high condition, with good buildings and fences, than to accept as a gift one of these run-down farms. It is time this matter was understood, so that those uneasy mortals who are always expecting to sell, and consequently make no efforts to keep up and improve the land, should be compelled to turn over a new leaf, or else dispose of their farms at a low figure.—[Ohio Farmer.

A tutor of one of the Oxford colleges, who limped in his walk, was some years after accosted by a well-known politician, who asked him if he was not the chaplain of the college at such a time, naming the year. The doctor replied that he was. The interrogator observed, "I knew you by your limp." "Well," said the doctor, "it seems my limping made a deeper impression than my preaching." "Ah, doctor," was the reply, with ready wit, "it is the highest compliment we can pay a minister, to say that he is known by his walk rather than by his conversation."

LOCAL AFFAIRS.

—Island eggs are now selling for 35 cents per dozen.

—Prof. Farmer of the torpedo station is dangerously ill.

—There were about 1100 people in the Opera House last night.

—Miss Mary A. Gifford will hold a meeting at Friends' meeting house this evening.

—Where do all the tramps come from? Last night there were ten at the station house.

—Sales were made Wednesday of the Old Colony Railroad stock, at $102.12½ to $102.37½.

—A. P. Sherman was the only representative from Newport who voted against the amalgamation bill.

—Mr. T. A. Spencer, organist in this city, will take pupils for instruction on the piano forte and organ.

—The winter term of the evening schools has closed. The day schools now enter on a vacation of two weeks.

—The Scandinavian ball at Smith's Hall last evening was well attended and all report a very pleasant occasion.

—The noon train from Boston was delayed about three quarters of an hour today at Fall River by the non-arrival of the train from Providence.

—The employes of the Old Colony Railroad and Steamboat Company were paid off today and several thousand dollars were thus put in circulation.

—At the Rhode Island poultry exhibition held in Providence recently James DeFray of this city took the first prize for Yellow Duckling Games.

—The tickets for the Juvenile Opera Troupe at the Opera House on Tuesday evening are selling rapidly. We hear it stated that the reserved seats are all sold.

—Rear Admiral Alden, U. S. N., who died at San Francisco a few days ago, was in the habit of spending his summers here at the residence of Mr. Charles N. Beach.

—The boats of the Old Colony line now discharge on the south side of Long wharf, the large boat in that slip having been removed to give place to them. This is much more convenient than the former arrangement. The freights of the company are unusually heavy for this season of the year.

—In the competition for the silver cup last night, the highest score was made by Herbert Chase of South Portsmouth, and the second by Howard Smith of Newport. As all the competitors have not finished their scores, it is still undecided to whom the cup will belong.

—A few days ago a gang of men contracted to reload the balance of the lumber cargo of the schooner Martha A., in distress at this port, on board the schooner Vashti Sharp, but yesterday afternoon they suddenly realized that they were not likely to make as much money by the operation as they expected so they struck for higher wages and left work, thereby causing no little annoyance to the captains of both vessels. They are probably aware by this time that they have made a mistake.

—Last evening about nine o'clock as the steamer Old Colony was passing Bridgeport, she came to a sudden stand-still and upon examination it was found that her large crank-pin was broken. Fortunately the New Bedford steamer was near at hand and took the disabled boat in tow as far as Point Judith, when the revenue cutter Grant, which came into harbor last night, relieved her and brought the Old Colony to Long wharf where her passengers were landed soon after ten o'clock. The officials are in hopes that the boat will be got ready for her trip tonight.

OUR SUMMER RESIDENTS.—Augustus Whiting is said to be engaged to Miss Florence Green of New York.—Mrs. R. B. Stuyvesant of New York has gone to Florida for the winter.—W. F. Torrance has left for Europe.—Mrs. Edward Cooper had a dinner party at her residence on Lexington avenue, New York, last Wednesday evening.—Mrs. I. U. Coles gave a Friday evening *conversazione* at her residence in New York and upwards of one hundred persons were present.—Judge Blatchford gave a dinner party last Thursday evening and on Friday evening Mr. and Mrs. Edgar had a cotillion at their residence on Gramercy Park.

VISIT TO A PASTOR.—One of the most enjoyable times at the parsonage of the Thames-street M. E. church was that of last evening when the older members of the church gathered in a body, took possession of the house, and made themselves perfectly at home. It was designed to be a surprise and would have been a perfect one had not some bird of the air flitted by and dropped in the ear of the pastor's wife some mysterious utterings which put her on the *qui vive*. A bountiful collation was provided, and the evening was spent in social and lively converse and song. Though many of the company were grey headed, it was evident they had not forgotten the buoyancy and glee of their youth. "The merry days when they were young" were lived over again. The pastor presided at the organ, and the solid music of other days was rendered with a heartiness which was peculiar to the olden time. At the close of the interview the long meter doxology with its English version was sung; and after an earnest prayer by the pastor the company separated with light hearts and happy faces. In the substantial tokens of kindness that were left behind, the inmates of the parsonage, for many a day and week, will have occasion to remember that gathering of their aged friends, while the scene will remain indelibly photographed upon their hearts.

THE DETENTION OF TRAINS YESTERDAY.—The train from Boston, due here at 11.45 yesterday noon, did not arrive until 3.40 in the afternoon. The delay was caused by an accident to a freight train due at Boston at 11 o'clock, at Tiverton. The forward car was thrown off the track and tipped up on one end, tearing up sleepers and ploughing into the ground. Workmen were taken down from Fall River on Conductor Claflin's train to the scene of the accident, and although they worked well it was after three o'clock before the passenger train was again on its way. The freight all had to be unloaded from the car and after the car was raised a new track was laid. The accident was in a very bad place, where there was no room to work.

There was nothing to be obtained in the eatable line, and no minstrels on board to amuse the crowd. Conductor Claflin wished to take the train back to Fall River, where more comfort could be obtained, but the orders were to remain at Tiverton until the track was cleared. If the company is not willing to carry passengers in such a case where they can provide for themselves, they should keep refreshments on board all the trains for such an emergency.

Immediately on the arrival of the train here, it left again for Boston. For some cause the Providence train failed to connect with Conductor Harrington's train last evening, and the passengers and mails were brought to Newport by the steamboat train.

THE DOW-KEMPTON OPERA.

The man who does not consider that he got his money's worth last night, however much he may be disposed to criticize individual parts of the performance, must be indeed hard to please. An opera of any kind is a rare event with us, and this is by far the best that has ever been given in the Opera House, with one exception; and that a number of years ago when Grau brought a troupe here. The Bohemian Girl is a popular opera and it was put on the stage in good shape last night. The Gypsy Queen, Mrs. Kempton, was the most artistic impersonation and her remarkable contralto was most enjoyable and made us wish that there were more opportunities for its display. Her make-up was excellent, her costume exceedingly picturesque, and her acting was good. Unfortunately Mrs. Dow was obliged, because of illness, to furnish a substitute, and Miss Anna Starbird took the part of Arline on short notice. Miss Starbird has a small voice but without a disagreeable note in it, a voice that shows a great deal of training and is possessed of much flexibility. She is, too, a very conscientious singer but she has a delicate physique and poor health against her, and we fancy that she appears to better advantage in the concert room than on the operatic stage. It was our misfortune that Mrs. Dow was compelled to absent herself, as however good a substitute in such cases may be, a new comer, who has not even had a rehearsal with the other actors must necessarily mar the performance of the others in a degree, and cannot be expected to be entirely satisfactory to herself.

Mr. Fench was an excellent Devilshoof, both in voice and action, and his introduction to civilization in the last scene was highly amusing.

The other parts were well acted, as acting in opera goes, and some of the voices were better than fair. The orchestra was unusually good and in itself was a treat to us, and the chorus, though a little out at the beginning was a very good one and was costumed in excellent taste. Altogether, this will be conceded to be the best entertainment the lecture committee has given us, and we regret that it is the last of the course. The house was crowded last night, the aisles were filled with chairs, and every standing seat was taken.

THE ELECTORAL COMMISSION.—OPINIONS OF THE PRESS.

The N. Y. Tribune says the decision of the tripartite commission in the Florida case is a great victory for the friends of Governor Hayes, marked, however, in such a way that the democrats feign to regard it as not quite a crushing defeat of Mr. Tilden. On the main question, so far as the commission has decided at all, it has adopted the principle put forth in the address of Mr. Evarts.

The Boston Transcript says the decisions made by the electoral tribunal virtually settles the cases of Florida and Louisiana. The refusal to admit testimony impeaching the correctness of the facts certified to by the legally constituted state canvassers of Florida, gives the electoral vote of the state to the republican candidates; and the same principle will apply equally to Louisiana and South Carolina, and will require that the votes of those states shall also be counted for Hayes and Wheeler. We need not say that we regard this decision as not only sound in law, but as doing substantial justice. It defeats the frauds by which the democrats endeavored to steal the votes of all southern states, and which were successful elsewhere. The republicans had nothing to fear from the most rigid examination, but they knew that the time was too short for the full investigation which alone would be just. The view now taken by the commission is in strict conformity with the constitution and with uniform precedent: and it will be held to settle the question for all time, unless a change should be made in the electoral system by constitutional amendment.

The World says the decision is preliminary, and whatever the result may be of the decision in the Florida case, the public will hardly adopt the conclusion that the commission is incapacitated from considering the facts and testimony taken by the convention of the two houses, or that it is shut off from the methods of inquiry practised on all former occasions when any inquiry was necessary.

The Herald says an important point in the presidential inquest has been determined by the judgment of the commission rendered Wednesday. In the immediate eagerness to know the practical consequence of any decision in this case, opinions of that consequence are vouched by very hasty processes, and opinions of this sort already contemplate this judgment as a point gained for the republican candidate, and we hear consequently of the discouragement of the democrats.

The Times says it will be quite natural that republicans should receive with gratification this first decision of the commission, so clearly sustaining the view of the law of the rights of states, and of the powers of Congress, which republicans generally have adopted. But we venture to point out with the more emphasis, because the decision has been in favor of the republican view, that at the very outset of its career, on the first essential question submitted to it, the commission has confirmed the main arguments which are repeatedly urged against the bill creating it. It has decided a purely legal question by what with all respect must be called a strict party vote, and that decision was practically made by the vote of the odd judge. The act will be generally accepted as a partisan act.

The Boston Post thinks the decision will be a great disappointment to the public that has been confidently expecting the commission to pass judgment upon the validity of the certificates themselves when challenged by objectors; but it vastly simplifies and expedites the work of the commission.

The bad feature of this decision is the strict party vote by which it was made. It is unfortunate that in this, the first formal vote taken in the commission upon an important question, the division should be so marked between republicans and democrats. This misfortune is made more weighty by the fact that the decision shields the republicans from the effect of the exposure of their partisan trickery which congress has made, and compels the final determination to be made on technicalities without regard to the fundamental truth in the matter.

The Boston Journal says there is complete agreement among all the Washington dispatches that have yet come to hand as to the political impression made by the electoral commission in its first decision in the Florida case. It is universally regarded as a republican triumph. A democratic correspondent reports a leading member of his party as exclaiming, with an expletive not necessary to be copied, "This is awful!" The material questions, however, are, Is it right? and, What effect will it have upon the cases of the other disputed states and upon the final result of the commission? As to the first, the decision proceeds substantially upon the ground that all legal regulations as to the choice of electors are to be respected by congress—the commission having exactly the same powers as congress in this respect. To upset these regulations, or what is the same thing, to go back of them and prosecute overhauling of elections, would not only be a flagrant trampling upon the rights of the states, but would be opening up a jurisdiction for congress as difficult to exercise as it would be defiant of the constitution.

BOGUS HALF DOLLARS.

A MINT ASSAYER ON THE BEST WAY TO DETECT THEM.

The Philadelphia Public Ledger has the following note from W. E. Du Bois, assayer at the mint, concerning the manufacture of counterfeit half dollars and the manner of distinguishing between these spurious coins and the genuine. The letter will be found very interesting.

Counterfeiters generally content themselves with the cheap and quiet process of casting from moulds, though sometimes they strike the pieces from dies. The mould is made from the genuine coin and yields a fac simile. They use a type metal, somewhat hard and sonorous by the addition of copper, the whole being slightly silvered over in a battery, and the gate neatly ribbed out on the edge. Such pieces may pass when fresh and new. They are, however, rather too white and too thick, or, if of the right thickness, too light. There is something about

THE GENUINE COIN

that ordinarily puts it above suspicion, particularly after the new white surface has given place to the inimitable and permanent nineteenth tint. It may be abused by heating or staining, or by contact with gum-elastic bands. It has been disfigured with tin-foil, for the small purpose of provoking a bet. In rare cases it may have a flaw at the edge, or shut in, which destroys the ring. But generally it speaks well for itself as to color and sonority.

The genuineness of a half-dollar is something worth looking after, to any of us, and especially to storekeepers taking them often through the day. It is, therefore, worth the trouble to have on the counter one or two witnesses easy to be had.

THE TESTS.

1. A balance, which need be no more than a thin strip of wood eight or ten inches long neatly poised. Place a good piece on one end and the suspected one on the other and have a weight of three or four grains at hand. If the difference is more than that, decline taking the piece.

2. A liquid test, composed as follows: Twenty-four grains of nitrate of silver in crystals; one gramme (say fifteen grains) of nitric acid and one ounce of water. Any druggist can put this up, in a small bottle with a pointed glass stopper, made for lifting drops, taking care to use pure ingredients. Remove a little of the surface of the coin by a knife, and then touch the place with a drop from the stopper. If good, there will be no action; if bad, it blackens at once.

It should be observed this is not the compound we use for examining gold counterfeits and jewelry. And, further, some persons use nitric acid alone, which will discolor a good coin as well as a bad one.

As for the pieces struck from dies, they are generally such poor imitations that the taker almost deserves to lose them. Such a piece, dated 1876, is now before me; good color, feeble and faulty devices, right weight, but quite too thick. It would be caught by the gauge already mentioned. It is a whitish brass, with silver plating, more substantial than the electro silvering.

The writer has chosen to speak mainly of the half-dollar, because these are chiefly complained of, and the lesser pieces are less likely to be imitated. Still some men seem to take pride in this despicable work, even if it yields small profit. In the long run counterfeiters are never enriched, and their sequel is generally in prison walls.

A tremendous temperance movement is in progress at Trenton, N. J., and if it is not arrested in its course there will either have to be an adjournment of the legislature or a disbanding of the lobby. Legislature jobs cannot be managed without whiskey.—[N. Y. Herald.

"Fred," said a young man the other day after listening to his wonderful story, "do you know why you are like a harp struck by lightning?" "No," said Fred. "I give it up." "Because a harp struck by lightning is a blasted lyre," was the reply.

A well-known tragedian of the old school was recently "starring" in a English provincial town, when there arrived in it, also on "starring" tours, Mr. Henry Irving and Mayor's Circus. A friend of the old-school tragedian, meeting him in the street, asked him how he was doing. "Bad, bad as bad can be," croaked the tragedian; "not quarter houses!" The sympathizing friend condoled with him, and finally wound up by saying: "But then you must remember Mr. Irving is a very popular actor." "Mr. Irving!" exclaimed the tragic one. "Hang Mr. Irving! I'll star against Mr. Irving anywhere; but I'd like to know who the deuce is to star against twelve infernal performing elephants!"

LIFE-MOSAIC.

Master, to do great work for thee my hand
Is far too weak! Thou givest what may suit
Some little chips to cut with care minute,
Or tint, or grave, or polish. Others stand
Before their quarried marble, fair and grand,
And make a life-work of the great design
Which thou hast traced; or, many-skilled combine
To build vast temples, gloriously planned.
Yet take the tiny stones which I have wrought
Just one by one, as they were given by thee,
Not knowing what cause for it in thy wise thought,
Set each stone by thy master-hand of grace,
Form the mosiac as thou wilt for me,
And in thy temple-pavement give it place.

—[FRANCIS RIDLEY HAVERGAL, in Good Words.

THE REVENUE OF CHINA.

A sketch of the constitution of China has been forwarded to us, obviously by some very well-informed hand, which contains something quite new—an estimate of the actual revenue of China. It is believed to amount to $125,000,000, raised by taxes on land, grain, the transit of goods, foreign imports, and a few other objects, and by the sale of ranks and degrees. Of this amount $75,000,000 is believed to be spent in one way or another upon the army. Of course, these amounts are irrespective of local dues, of requisitions in kind, and of direct plunder, and judging it by the old revenues of India, it may be accurate. The remarkable fact in the account is the small amount raised by the land tax—less than $30,000,000.—[London Spectator.

☞ By his advertisement in another column the reader can learn of what Dr. Guilford makes a specialty. That he cures many diseases, especially nervous diseases without medicine, can be testified to by hundreds of intelligent ladies and gentlemen, many of whom live in neighboring places and whose names can be had by calling on the doctor.

NEW BEDFORD.

The operatives of the Wamsutta mills have decided to strike. Action has been taken for the collection of a strikers' fund. The spinners will be asked to give half a dollar each, and the weavers ten cents per loom. It was stated that as the machinery is speeded, the help now have to do as much work in ten hours as they formerly did in eleven. Arrangements will be made, it is expected, for another mass meeting on the 17th inst., the night before the work is to stop.

The journeymen printers seem to be following the example of the mill operatives. At a meeting which was well attended, every shop being represented, a resolution was unanimously adopted that they agree not to work for less than 30 cents per hour from and after this date.

The directors of the Citizens' National Bank have voted to increase the capital stock $200,000, on the 3d of May, 1877, making the capital $500,000.

TO ALL WHOM IT MAY CONCERN.

It is not for the election
We are writing up this thing;
'Tis not at politicians
We wish to have a fling;
But it is all of painting,
And things that go therewith;
For we—Pro Bono Publico
Have entered into "biz."

Now just give us a trial,
And we'll prove to one and all
That we mean to do things squarely,
In big things and in small.
The "Golden Rule" we hold to
As firmly as a rock;
And in all the work that we perform,
We'll use the best of stock.

Our prices are as reasonable
As any in the city,
And we will do your painting
In a style you'll say is pretty;
And painting up your houses
Is not all that we would do,
For we would glaze and paper them,
And kalsomine them too.

In fact, whatever work you'd have,
That's in the painter's line,
We are ready to do for you
If to us you incline;
And to give good satisfaction
Is consistent with our plan,
And we are bound to give it
To each reasonable man.

WM. R. PITMAN, - - 35 Broadway,
feb6 SOLE AGENT FOR NEWPORT.

ARRIVAL!

Dr. Melancthon Guilford,

(LATE OF NEW YORK,)

PHYSICIAN & SURGEON,

HAS ARRIVED AT THE

PECHAM-STREET HOUSE, Newport,

AND WILL RECEIVE CALLERS,

FROM 9 A. M., TO 5 P. M.,

EACH DAY FOR ABOUT FIVE WEEKS.

Dr. Guilford for the past ten years has made a specialty of the cure of **NERVOUS DISORDERS,** having great success, curing by magnetism, and without giving medicine.

The doctor claims to have great natural magnetic power over diseases of the nerves, and for the treatment of such diseases does not use drugs.

The other complaints humanely and successfully treated by the doctor embrace nearly the whole catalogue of CHRONIC DISEASES, such as CATARRH, CONSUMPTION, and all diseases of the THROAT, BRONCHIAL TUBES, LUNGS, EARS, and EYES. He cures the worst forms of LIVER COMPLAINT, DYSPEPSIA, and all troubles of the DIGESTIVE ORGANS and KIDNEYS. He cures all diseases of the BLOOD and SKIN, such as CANCERS, TUMORS, SCROFULA, ERYSIPELAS, SORE EYES, SALT RHEUM, TETTER, PIMPLES, OLD SORES, ULCERS, &c., &c.

PARTICULAR ATTENTION given to that class of complaints requiring the services of the best surgical skill and experience, such as **Ruptures, Fistulas, Piles, Gravel, Strictures,** and all diseases of the **Genital Organs, Bladder** or **Rectum,** in either sex. **Nervous Debility,** and **Seminal Weakness Speedily Cured.**

Dr. Guilford, has, for a number of years past, given much study to diseases of the **Heart** and **Nerves,** and to the cure of **Rheumatism, Neuralgia, Sciatica,** etc. He has had an extensive experience in the successful treatment of **Complaints Incident to Females.**

Appliances Furnished.

Dr. Guilford has made to his especial order the **"Radical Cure Truss,"** for the cure of **Ruptures, Abdominal** and **Uterine Supporters,** for the cure of **Misplacement** and **"Prolapsus Uteri." Elastic Bandages,** for Varicose Veins, and **Chest Expanding Shoulder Braces, &c.** Also supplies **Ear Trumpets** of all kinds for incurable deaf patients, **Club Foot Shoes,** appliances for Weak Ankle Joints, Knees and Bow Legs; also apparatus for the cure of Curvature of the Spine, &c., &c. And all of the above articles are made to order for the doctor's patients, and will be furnished at the very lowest prices.

TESTIMONIALS.

Dr. Guilford does not publish the names of his patients. He has during the past ten years of his special practice cured a great many people, old and young, male and female, rich and poor, and has certificates of such cures; but patients come to him in confidence, many with very sensitive and delicate feelings regarding their physical condition, and the doctor WILL NOT BETRAY HIS TRUST. All may consult with him upon the most delicate subjects pertaining to their health, with every assurance of the interview being secret.

Particular Notice.

Consultation entirely free. To those who place themselves under treatment, examination is free; otherwise a small fee is charged.

After making a thorough examination, ascertaining the nature of the case, if curable, etc., the doctor will determine the length of time necessary to effect a radical cure, and fix the value of his services accordingly, WHICH IN ALL CASES SHALL BE WITHIN THE MEANS OF THE PATIENT.

Afternoons particularly devoted to women and children. feb6

WINTER OF

1876 AND 1877.

For sale cheap, as I want to reduce stock.

I HAVE ON HAND and want to sell the following vehicles:

1 extra nice new Two Seated Sleigh made at Albany, lined with crimson plush, with rattle pole and shafts, just the sleigh to make a Christmas present, and be remembered at every snow storm. 2 second hand Two Seated Sleighs, with pole only. 1 Single Sleigh, second hand. 1 second hand Coupe Carryall in good order and just painted, good serviceable storm carriage and cheap. 1 Brewster Carryall. 1 C Spring Top Phaeton Buggy. 1 Brewster Top Buggy. 2 Phaeton Top Buggy. 1 Open Buggy. 1 Two Seated Open Wagon. 4 Express Wagons. 1 nice Dog Cart with reversible seat, pole and shafts, just the carriage to drive 4-in hand to. 1 very nice new Box Top Buggy. 1 very nice new Basket Top Phaeton, will sell a great deal lower now than in the Spring—makes a good close buggy, or a nice summer carriage. 3 second hand Beach Wagons, cheap. 1 second hand Landau, cheap. 3 Barouches in good order and newly painted. 1 Victoria with pole and shafts, cheap if sold now. 1 Covered Wagon, will carry 8 people easy. 1 new Express Wagon, cheap as we are giving up selling express wagons. 1 new Road Wagon, just the thing for business or pleasure. 1 Sargent Top Phaeton Buggy, been used but little. 1 Phaeton Top Buggy, one year's use, and that with care. 1 second hand Light Dog Cart with shafts. 1 second hand Rig with seat behind, just the thing for 6 horse team, newly painted and in good order, and several other carriages all of which I shall be glad to sell for cash or paper that will be paid at maturity.

I would say that through the kindness of my friends, I have disposed of about 100 different vehicles the past few years having sold carriages to go to Providence, R. I., Stonington, Ct., Little Rock, Arkansas, Middletown, Portsmouth, Riverton, Fall River, New Hampshire and various other places, all of which have proved as represented. To those having any Horses Painting, Graining or any other work, that they want done and are willing to pay a fair price to have the same done in a good and substantial manner, I shall be glad to give estimates, and will warrant all work done by me to be in every respect as represented. I return my thanks for the generous patronage which has been bestowed in the past and asked a continuance in the future. To my very numerous friends who have neglected to settle their bills for work done long ago.—If they will now respond by attending to them at once they will confer a great favor, as money is now very useful.

FRIDAY, FEBRUARY 9, 1877.

THE ODD FELLOWS.

The amount of money paid by the Order of Odd Fellows in this state, during the last year, for the relief of the brethren, and the families of deceased brethren, was nearly nineteen thousand dollars. This fact shows conclusively that the principles of the Order, as set forth in its initiatory ritual, are not a dead letter. The progress of the Order in this state has been gradual, and it has from the first attracted a large proportion of members thoroughly imbued with the philanthropic doctrines it inculcates. It is, as it has been, a conservative body, and has carried out with more than ordinary faithfulness and exactness the theories upon which it rests. Those theories are symbolized in its motto, "Friendship, love and truth," and they are enforced by rules which ensure, as the statistics show, such practical discipline and sympathy that the necessities of the poor and the wants of the afflicted are promptly and tenderly provided for. Without display or ostentation, the Odd Fellows are doing a good work, and the Order embraces in the several towns, as in the city, many of our most worthy and estimable citizens.—[Providence Journal.

THE BLUE GLASS MANIA has reached its climax in the sad one of a Chicago man. He went into an optician's and bought a pair of blue goggles to wear on his eyes. He dropped in a hat store and ordered a little round piece of blue glass put in the top of his hat in place of the usual ventilator. He then partook of a dinner of blue-fish at a restaurant with a blue skylight, dipped his fingers into a blue glass finger-bowl and refused to drink anything until the waiter hunted him up a mug with a blue glass bottom. The day was now spent, and going home in a blue-light street car the blue glass man, meeting his children at the door, refused to kiss any but those having blue eyes, sat down in a blue chair to read a copy of the blue laws of Connecticut and got into such a fit of blues that he took some blue ink, and, writing in his will that at his death the glass in his coffin should be blue glass and his monument be made of blue granite, he grabbed a revolver and blew out his brains.

The former residence of Edwin Forrest, near Philadelphia, now a home for indigent actors, is a strange place. The house is a palace in its gorgeousness; the furniture is beautiful and expensive; the library, the pictures and the statuary are such as are seldom seen in private collections. All this is enjoyed by two old and infirm actors and a superintendent, for the benefits of the establishment have not been availed of, as yet, by any except the two mentioned. Celia Logan, who recently visited it, says that their chief trouble is to kill time.

Couldn't you give me something to do?" asked a poor boy at a Michigan shingle factory, the other day. "No said the owner, "We are full now." The boy looked sad and was about to go away, when a bright thought seized upon him, and turning again to the owner, he inquired, "don't you need a boy to test shingles on?" But even then the lad could get no position, for the man had a boy of his own.

"Faith, and is Mr. Gaff in?" "Mr. who?" "Mr. Gaff in shure." "Who is Mr. Gaff?" "In troth I don't knoah, but I have a load of cawl there below for Mr. Billy Gaff's office." "You mean the telegraph office." "Be jabers it is not Terry at all; his name is Billy or William, or something of the sorot." The coal was left in the telegraph office.

REASONS

WHY YOU SHOULD PREFER TO INSURE

WITH THE OLD

INSURANCE CO. OF NORTH AMERICA

PHILADELPHIA.

1. It is the **Oldest Insurance Company in America,**—having commenced business in **1794**—and therefore entitled to your confidence on the score of **Stability.**

2. It has done a **successful business for eighty years,** thereby demonstrating the **ability of its management.**

3. It has uniformly maintained during its long career, the **Highest Reputation for Integrity and Honorable Dealing,** justifying thereby, full faith that your rights will receive fair and liberal protection,

4. It has paid **Losses** in cash, exceeding **Thirty Million Dollars,** without the deduction of a cent, or a day's delay—a sufficient evidence of the **Wealth** of its Resources, as well as disposition to meet promptly all liabilities.

5. It has a **Cash Capital and Surplus** of over **$4,700,000,** securely invested—an ample GUARANTEE AGAINST DISASTER, in the event of unusual and extraordinary losses, which have often swept away companies of limited means,

6. It insures all the better classes of property on **Liberal Terms,** for long or short periods, and settles all honest claims for losses, **Promptly and Equitably,** at the Agency where the insurance is effected—observing in all its business relations, the **Golden Rule.**

CHILDREN TEETHING

MRS. WINSLOW'S

SOOTHING SYRUP,

For Children Teething,

greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to yourselves, and

Relief and Health to Your Infants.

We have put up and sold this article for years, and CAN SAY IN CONFIDENCE AND TRUTH of it, what we have never been able to say of any other medicine—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter "WHAT WE DO KNOW," after years of experience, AND PLEDGE OUR REPUTATION FOR THE FULFILMENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

The valuable preparation has been used with NEVER FAILING SUCCESS in

Thousands of Cases.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

Griping in the Bowels, and Wind Colic.

We believe it the BEST AND SUREST REMEDY IN THE WORLD, in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—DO NOT LET YOUR PREJUDICES, NOR THE PREJUDICES OF OTHERS, stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle.

FOR SALE.—Lots suitable for summer residences at Goddington Point. This is one of the most desirable localities in the vicinity of Newport, and affords views of the city, harbor and bay unsurpassed. The Old Colony Railroad has a station here, so that residents from Boston, Fall River, Taunton and other cities in New England can be landed at their own doors. Very eligible lots can be had at ten cents a foot. A house located a short distance from the station, and having a unobstructed water view will be sold very low. This whole property will, in a few years be worth many times its present value. No other such opportunity for investors of capital is presented in this city. For particulars apply at the DAILY NEWS office.

Assignments recorded at Washington. No agency in the United States possesses superior facilities for obtaining patents or ascertaining the patentability of inventions. R. H. EDDY, Solicitor of Patents.

Testimonials.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse.

CHAS. MASON, Commissioner of Patents."

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the patent office.

EDMUND BURKE, late Commissioner of Patents."

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—Dear Sir: you procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly,

GEORGE DRAPER.

TO THE LOVERS of STEREOSCOPIC VIEWS.

THE ATTENTION of the public is invited to the following views from negative by J. A. WILLIAMS, which is believed to be the best and largest collection of the gems of Newport scenery ever offered.

The negatives are all carefully taken with the best materials and instruments and aim to present not merely patches of landscapes from points chosen at random as is the case with many others, but, views which shall combine within themselves all the best elements of a picture in the artistic sense.

We would call particular attention to our new cabinet size views taken the present season, 1876, which exhibit with all the fidelity of the stereoscope.

Parties who may wish to make presents to their friends abroad, or to carry home memento of Newport, cannot make a more acceptable choice than by selecting from the many beautiful views of Newport and surroundings.

Interiors and exteriors of houses taken to order. Also parties, horses, &c.
